Our purpose is to provide engaging and positive child care environments.

Our services participate in the National Quality Framework.

Family Day Care (FDC) Statewide

This is a child care service providing flexible, unique and supportive care for children up to 13 years of age. Care is delivered in a relaxed and friendly home-based setting by registered FDC educators.

Small groups of children can interact and learn in a fully supervised environment.

Educators are qualified, experienced and skilled. NCN provides ongoing training opportunities and all educators are required to have formal qualifications, relevant working with children checks and a full first aid certificate.

Please contact our office for more information and to discuss what options may be available for you and also the necessary training requirements.

Connect with NCN online. We have an extensive website outlining our business and child care services plus various Facebook pages showcasing our services with information, pictures and links to child care focussed information.
